in decision modelling and information systems the information value chain the authors explain the interrelationships between the decision support decision modelling and information systems the first two parts of the book focus on the interdisciplinary decision support framework in which mathematical programming optimization is taken as the inference engine the role of business analytics and its relationship with recent developments in organisational theory decision modelling information systems and information technology are considered in depth part three of the book includes a carefully chosen selection of invited contributions from internationally known researchers these contributions are thought provoking and cover key decision modelling and information systems issues the final part of the book covers contemporary developments in the related area of business intelligence considered within an organizational context the topics cover computing delivered across the web management decision making and socio economic challenges that lie ahead it is now well accepted that globalisation and the impact of digital economy are profound and the role of e business and the delivery of decision models business analytics across the net lead to a challenging business environment in this dynamic setting decision support is one of the few interdisciplinary frameworks that can be rapidly adopted and deployed to so that businesses can survive and prosper by meeting these new challenges

evolutionary computation techniques have attracted increasing att tions in recent years for solving complex optimization problems they are more robust than traditional methods based on formal logics or mathematical programming for

many real world or ms problems evolutionary computation techniques can deal with complex optimization problems better than traditional optimization techniques however most papers on the application of evolutionary computation techniques to operations research management science or ms problems have scattered around in different journals and conference proceedings they also tend to focus on a very special and narrow topic it is the right time that an archival book series publishes a special volume which includes critical reviews of the state of art of those evolutionary computation techniques which have been found particularly useful for or ms problems and a collection of papers which represent the latest development in tackling various or ms problems by evolutionary computation techniques this special volume of the book series on evolutionary optimization aims at filling in this gap in the current literature the special volume consists of invited papers written by leading searchers in the field all papers were peer reviewed by at least two recognised reviewers the book covers the foundation as well as the practical side of evolutionary optimization

audience anyone concerned with the science techniques and ideas of how decisions are made book jacket

the first ovarian workshop was held in june 1976 its goal was to achieve a collective understanding of current thought on ovarian follicular development and function and to generate clear definitions of the most important areas to be explored in the future the ovarian workshops quickly became a major biennial event for the community of reproductive biologists and their students studying ovarian function as a young graduate student i gave my first scientific presentation at the first ovarian workshop and i have attended all but one of the subsequent meetings the workshops provided a unique forum for the sharing of ideas with colleagues studying closely related problems i was therefore especially pleased to have been asked to organize the seventh ovarian workshop and to be given an opportunity to help perpetuate these important meetings the

seventh ovarian workshop was held on the campus of the university of puget sound in tacoma washington on july 31 and august 1 1988 serono symposia usa generously financed and coordinated the meeting i would like to express my particular thanks to dr lisa kern and dr james posillico for their invaluable help prior to during and after the meeting i would also like to thank mary benson and her staff at the university of puget sound who made us feel at home in every way
